Are you worried and anxious about the present state of the world? Are you concerned about your future and that of your family? Do you want to live better, cheaper and healthier? Without worrying about politics, war, money problems, government surveillance, keeping up with the Joneses or even the unthinkable -- nuclear Armageddon? Then consider bugging out to Belize, the little English-speaking country on the Caribbean Coast. It's so close, yet so far from most of the world's problems. Bug Out to Belize by Lan Sluder tells you how to do it: What areas are best? How much does it cost to live in Belize? How do you get residency? What are the pitfalls to avoid? And, how to make the move! Written by a leading expert on Belize, an award-winning reporter, newspaper and magazine editor, contributor to leading publications around the world including the New York Times, Caribbean Travel & Life, Chicago Tribune, Miami Herald and the Globe and Mail, and author of more than 20 books, Bug Out to Belize can guide you to a better, more worry-free future in beautiful Belize, the friendly, affordable, frost-free and English-speaking little country on the Caribbean Coast.

Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they've lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacitinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, Vintage Camper Trailers, which now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. The lord of snark, Lawrence Dorfman, is back! With this treasury of backhanded compliments, sarcastic insults, and catty comebacks, Dorfman gives us transformative wisdom that's sure to change your life—or at least induce a light chuckle. One question plagues us all: How do we survive all the Sturm und Drang of everyday life? The answer is but one word: snark. “She wears her clothes as if they were thrown on by a pitchfork.” —Jonathan Swift “Why don't you get a haircut? You look like a chrysanthemum.” —P. G. Wodehouse “He's a mental midget with the IQ of a fence post.” —Tom Waits “They hardly make 'em like him anymore—but just to be on the safe side, he should be castrated anyway.” —Hunter S. Thompson “He has a Teflon brain . . . nothing sticks” —Lily Tomlin “He has no more backbone than a chocolate éclair.” —Theodore Roosevelt Snark will keep the wolves at bay (or at least out on the porch). Snark, much like a double scotch, will help you deal with relatives, shopping, and rudeness; it is an outlet for the unleashed vitriolic bile that's saved itself up over the months. Like a shield, it will protect you while you go about your life. Snark is your answer!

From Problems to Profits

Winner of the Bancroft Prize The New York Times Book Review, Editor's Choice American Heritage, Best of 2009 In this vivid new biography of Abigail Adams, the most illustrious woman of the founding era, Bancroft Award-winning historian Woody Holton offers a sweeping reinterpretation of Adams's life story and of women's roles in the creation of the republic. Using previously overlooked documents from numerous archives, Abigail Adams shows that the wife of the second president of the United States was far more charismatic and influential than historians have realized. One of the finest writers of her age, Adams passionately campaigned for women's education, denounced sex discrimination, and matched wits not only with her brilliant husband, John, but with Thomas Jefferson and George Washington. When male Patriots ignored her famous appeal to \"Remember the Ladies,\" she accomplished her own personal declaration of independence: Defying centuries of legislation that assigned married women's property to their husbands, she amassed a fortune in her own name. Adams's life story encapsulates the history of the founding era, for she defined herself in relation to the people she loved or hated (she was never neutral), a cast of characters that included her mother and sisters; Benjamin Franklin and James Lovell, her husband's bawdy congressional colleagues; Phoebe Abdee, her father's former slave; her financially naïve husband; and her son John Quincy. At once epic and intimate, Abigail Adams, sheds light on a complicated, fascinating woman, one of the most beloved figures of American history.

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.
