Weekly update and news

Why do you do what you do for Brad?

Capthoke784: ?Forgive the ignorance, but is it worth the time to take a fleam (I think that's the proper term) out of a saw and transfer to a rip file? or would it be easier to buy a new blade or cut new teeth?

Red Storm: ?Are there levels of tempering, or is it just tempered or not tempered?

Nicholas Todd: All the chisel and plane blade videos teach us to feel for the bur. Are you saying that since pressure can cause a bur, and it can be too much... should we avoid trying for a bur?

Red Storm: ?The best way to sharpen Damascus Steel?

Rob Williams: What is the most common thing people get wrong with trying to re-sharpen anything?

ChrisG: I am scared to try and sharpen a plane blade by hand. I really want to gain this skill to sharpen without a jig. How easy is it to ruin a plane blade learning by hand?

How to chose a saw sharpening file to fit your hand saw - How to chose a saw sharpening file to fit your hand saw by Wood By Wright How To 42,172 views 11 months ago 36 seconds – play Short - How do you choose a file for **saw sharpening**?
